
Ajax RSS refresh time

Posted by Roger - 2009/12/29 03:53

Hello,

I'm using your fantastic RSS feed to show comments in my site (the comments are created with Jcomments). The module works great, but I've noticed the feeds are refreshed with a long interval of time.

I mean, old comments deleted up to one day ago keep appearing, and in the same token, new comments don't appear until one day or so.

I've tried to put the module's cache to "1 minute" but that doesn't seem to do anything.

COuld you please help me with this?

Thanks in advance!

Best regards,
Roger.
