
Kwick Vertical Sliding Menu now can work in IE7

Posted by dennysp - 2008/05/20 01:36

Hello all,

We are happy to announce that we have fix the error/bug of Kwick Vertical Sliding Menu (can't work in IE7).
The module, both for J!1.0 and for J!1.5 now can work properly in IE7.

The latest module can be downloaded at free download area.

Regards,

dennysp
